

# CR6D Tool Loan Program

Entering the 18<sup>th</sup> year of this program it has only grown in reach and coverage. With almost 100% coverage of all factory approved and original tools for Jaguar cars from 1948 to 2010 it is truly a unique service. We are satisfied that in the many tool loans we have had two tools destroyed by careless use or abuse. Fortunately, the deposit was enough to find and purchase replacements. Please remember that we may only loan factory tools—not reproductions. The only exception is we were granted permission to buy and offer a head pulling tool for the V 12 cars. If you have attempted this on an older V 12 you will appreciate the need. In 2024 5 folks signed up as MALs to use the program.

We understand that many folks see tools like this:

We, however, do not and the hundreds of notes from members upon the return of the tool is testament to this.

We have continued to expand the tool holdings on the west coast especially in the high use and heavy tools. In a recent shipment to the West Coast library and tool deposit we included the much-desired J7 wire wheel hub puller. We also provided the West coast as well as the South-Central Region with a WDS (World Diagnostic System) which with the provided upgrade discs (IDS) Intergrated Diagnostic Software they span coverage of Jaguar cars of the period 1995 to 2010. These are

not simple code readers but the dealer tools to diagnose and repair every aspect of the cars including programing new modules/keys/ and read and repair systems off the shelf code readers will not. These machines were restored at the Foundation with Foundation funds and transported to the SW and SC regions. The Foundation has had a WDS in the NE region for a while and it seems to be worth the effort. The SE region WDS is retained in South Carolina and is used almost weekly to repair a car. Recently it was loaned to a local dealer to repair a 2009 XK as the current system they use could not download the necessary files. Here are the WDS machines prior to dispatch:

If deemed useful we will search for a NC region WDS to provide service.
